

Blackboard Access Instructions

Blackboard (<http://blackboard.iusd.org>) is a user friendly website that allows students and parents to access useful information about their SVMS classes from any computer, anywhere. The amount and nature of content varies by teacher, but most students will have at least several classes for which Blackboard will be a valuable resource for course documents and announcements.

How to access Blackboard (without student's password):

- Go to <http://blackboard.iusd.org>
- Click on 'Login', Click on 'Preview'
- Click on the green file tab at top of page that says 'Courses'
- Click on 'Middle Schools'
- Click on 'Sierra Vista'
- Find the course AND teacher for the class you are checking on. You can use the search feature but be sure you select the Instructor from the drop down and click on the "go" button. Do not press enter on your keyboard.
- Click on the class number. Do not click "enroll" on the right side or you will be prompted to login.
- You are now on the opening page! You can see all previously posted announcements by clicking on the correct tab for 'All Announcements', or for the 'Past 7 Days.'

The 'Course Documents' tab will take you to all posted class worksheets and important papers.

***REMEMBER: NOT ALL TEACHERS USE BLACKBOARD**

Be sure to login to Parent Portal to view your child's grades.
