

THE SCIENTIFIC METHOD

PURPOSE

What do you want to find out (Question/Problem)?

INTRODUCTION (BACKGROUND RESEARCH)

Useful information on subject being examined (including formulas).

HYPOTHESES

What do you think will happen?

MATERIALS

What do you need to use?

PROCEDURES

What will you do to find out?
(Control Group & Variables)

DATA (RESULTS)

What happened?

CONCLUSION

What did you learn (discuss results in terms of the hypothesis)?
