

Listening Assignment

Name: _____ period: _____

During your vacation, your assignment is to listen to music that can be heard on the radio station KUSC, 91.5 FM (kusc.org), or another similar source such as satellite or cable radio. Radio is preferred over CD's due to the wide variety of material presented. After listening, write down the composer and title of the piece(s) heard below and the date you heard it. You are responsible for 60 minutes of active listening each week. Active listening means that you are actually focused on the music itself and not engaged in an activity that takes your attention away from the music (listening in the car or while cleaning your room would be okay, but not while reading, watching TV or playing video games).
